

Safety Pool Covers—with best combination of abrasion resistance, tear strength, tensile strength, awesome water flow property, and excellent transmittance. The mesh pool cover provides safety, convenience and energy efficiency to swimming pool owners. Covering pool with a safety cover prevents your family members and pets from falling into the pool.

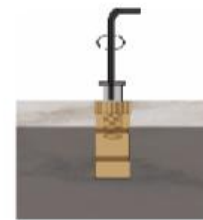

Installation

Drill hole in the ground
Ø: 19mm Depth:40mm

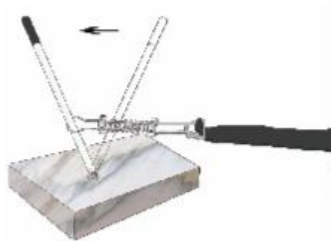

Insert anchors to the hole by a hammer

Adjust with hex key

After adjusting the anchors with hex key, using the tension bar to pull the springs away from the pool until the springs slide over the anchors.

Slide spring with tension bar

Finish

How to remove?

If removing the pool cover, rotate tension bar to disassemble springs
