TOUGH TOOLS, HALF PRICE

Technical Support and E-Warranty Certificate www.vevor.com/support

Mounted Cat Shelf Installation Instructions

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

SPECIFICATIONS

Model	SSGQK-04
Color	Nature

COMPONENTS

 A x 1	 B x 1	 C x 1
 D x 1	 E x 4	 F x 1
 G x 1	 H x 1	 I x 1
 J x 1	 K x 2	 L x 1

* each set of products is equipped with screwdrivers and wrenches

COMPONENTS

 Mx1	 Nx4	 O x 4
(A symmetrical pair)  P x 2	 Q x 6	 R x 1
(Loop-pile mat)  S x 4	(Loop-pile mat)  T x 1	(Loop-pile mat)  U x 1
 V x 36	(M6*40) (M4*70)  W x 82 X x 36	(M8*35)  Y x 2 Z x 2

* each set of products is equipped with screwdrivers and wrenches

Assembly Instructions

TIPS:

- 1.The number of screws marked above is the actual number used during installation. When the product is shipped, 1~3 more screws of each type will be given as spares.
- 2. During the use of the product, children are prohibited from approaching without the company of adults.
- 3. The edge of the product is a bit sharp, and you need to wear gloves for installation; at the same time, it comes with sandpaper, so you can polish the edge again by yourself; without gloves, be careful when touching the running wheel.
- 4.Do not tighten the installation screws at once. Tighten the installation screws twice after all screws are aligned
- 5.It is recommended that two or more people install the device

6.Please use the following tools to install

Tape measure

Scissors

Marker pen

screwdriver

Electric drill

Please mark the position on the wall against the plate, reserve about 30cm distance between the jump platforms, drill the hole and bury the expansion tube
(A 6mm drill bit is used for solid walls and a yellow expansion tube is embedded; a 9mm drill bit is used for hollow walls and a butterfly expansion tube is embedded)

Expansion solenoid

Butterfly solenoid

M4*70

Assembly Instructions

STEP 1

As shown in the figure, insert the wooden stick E into the wooden board A and fix it with screws, and then fix the wooden stick C and the wooden board D with screws on the wooden board A.

Finally, put the board B on and fix it with screws, and the individual components are installed.

STEP 2

As shown, fix the plank P and part Q together with screws, and repeat this step to install another set of components.

Assembly Instructions

STEP 3

As shown in the figure, first board F, G, H are installed and fixed on board 1 with screws;

Then put the plank J on and fix it with screws, and the installation of a single component is completed.

STEP 4

As shown in the figure, first assemble the plank J and plank N together, and then fix the plank K together with screws;

Then repeat this step to install another set of components.

Assembly Instructions

STEP 5

Y x 2

W x 10

As shown in the figure, install the sisal column R and the corresponding component together with screw Y, then paste the adhesive Z on the other component, then paste the mat S, and finally fix it with screws.

STEP 6

X x 36

As shown in the figure, paste the corresponding mat with adhesive Z, and finally use screw X to fix it on the wall.
(The installation distance of each component should be within 30cm)

As shown, fix the plank P and part Q together with screws, and repeat this step to install another set of components.

Assembly Instructions

STEP 3

As shown in the figure, first board F, G, H are installed and fixed on board 1 with screws;

Then put the plank J on and fix it with screws, and the installation of a single component is completed.

STEP 4

As shown in the figure, first assemble the plank J and plank N together, and then fix the plank K together with screws;

Then repeat this step to install another set of components.

Assembly Instructions

STEP 5

As shown in the figure, install the sisal column R and the corresponding component together with screw Y, then paste the adhesive Z on the other component, then paste the mat S, and finally fix it with screws.

STEP 6

As shown in the figure, paste the corresponding mat with adhesive Z, and finally use screw X to fix it on the wall.

(The installation distance of each component should be within 30cm)

SPECIFICATIES

Model	SSGQK-04
Kleur	Natuur

COMPONENTEN

 A x 1	 B x 1	 C x 1
 D x 1	 E x 4	 F x 1
 G x 1	 H x 1	 I x 1
 J x 1	 K x 2	 L x 1
* each set of products is equipped with screwdrivers and wrenches		

COMPONENTS

 Mx1	 Nx4	 O x 4
(A symmetrical pair)  P x 2	 Q x 6	 R x 1
(Loop-pile mat)  S x 4	(Loop-pile mat)  T x 1	(Loop-pile mat)  U x 1
 V x 36	(M6*40) (M4*70)   W x 82 X x 36	(M8*35)   Y x 2 Z x 2
* each set of products is equipped with screwdrivers and wrenches		

Assembly Instructions

TIPS:

1. The number of screws marked above is the actual number used during installation. When the product is shipped, 1~3 more screws of each type will be given as spares.
2. During the use of the product, children are prohibited from approaching without the company of adults.
3. The edge of the product is a bit sharp, and you need to wear gloves for installation; at the same time, it comes with sandpaper, so you can polish the edge again by yourself; without gloves, be careful when touching the running wheel.
4. Do not tighten the installation screws at once. Tighten the installation screws twice after all screws are aligned
5. It is recommended that two or more people install the device

6. Please use the following tools to install

Tape measure

Scissors

Marker pen

screwdriver

Electric drill

Please mark the position on the wall against the plate, reserve about 30cm distance between the jump platforms, drill the hole and bury the expansion tube
(A 6mm drill bit is used for solid walls and a yellow expansion tube is embedded; a 9mm drill bit is used for hollow walls and a butterfly expansion tube is embedded)

Expansion
solenoid

Butterfly
solenoid

M4*70

Assembly Instructions

STEP 1

As shown in the figure, insert the wooden stick E into the wooden board A and fix it with screws, and then fix the wooden stick C and the wooden board D with screws on the wooden board A.

Finally, put the board B on and fix it with screws, and the individual components are installed.

STEP 2

As shown, fix the plank P and part Q together with screws, and repeat this step to install another set of components.

Assembly Instructions

STEP 3

As shown in the figure, first board F, G, H are installed and fixed on board 1 with screws;

Then put the plank J on and fix it with screws, and the installation of a single component is completed.

STEP 4

As shown in the figure, first assemble the plank J and plank N together, and then fix the plank K together with screws;

Then repeat this step to install another set of components.

Assembly Instructions

STEP 5

As shown in the figure, install the sisal column R and the corresponding component together with screw Y, then paste the adhesive Z on the other component, then paste the mat S, and finally fix it with screws.

STEP 6

As shown in the figure, paste the corresponding mat with adhesive Z, and finally use screw X to fix it on the wall.

(The installation distance of each component should be within 30cm)
