We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

RC dump truck Model: 3367

FCC Information (FCC ID:2BEDH-3369) :

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This product may cause harmful interference.
- 2) This product must accept any interference received, including interference that may cause undesired operation.

WARNING: Changes or modifications to this product not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This product has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This product generates, uses and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, it may cause harmful interference in radiocommunications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the product off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the distance between the product and the receiver.
- Connect the product to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for assistance.

Correct Disposal

This product is subject to the provision of European Directive 2012/19/EU. The symbol showing a wheeled bin crossed through indicates that the product requires separate refuse collection in the European Union. This applies to the product and all accessories marked with this symbol. Products marked as such may not be discarded with normal domestic waste, but must be taken to a collection point for recycling electrical and electronic devices.

Important Notice

Attention please! This product can only be put into massive production after strict performance demonstration and actual testing as well as verify its compliance with the safety standards.

The manufacturer or distributor will not be responsible for any accident caused by use of damaged parts or abnormal faulty or broken parts. Nor do we responsible for any accident caused by improper assembly or operation in an unsafe environment during the use of any remote control model. Please make sure to operate this product in a safe environment.

Troubleshooting

Product problems	Solutions
Failure to start the excavator	1.The power switch is off, please turn it on. 2.The battery is loaded incorrectly. Please check the positive and negative polarity of the battery to ensure correct loading of the battery. 3. The battery is exhausted, please charge the battery or replace the battery.
The remote control is unavailable for use	1.The battery in the transmitter is exhausted, please replace it with a new battery. 2.The excavator is beyond the controlling scope of the transmitter, please keep it in the controllable range. 3. Considering the presence of electromagnetic interference on surroundings, please bring the toy to a spacious site and use it.

Note: The surrounding electromagnetic wave interference may lead to the remote control car failure, you can restart the remote control car and operate again.

Suitable for children
on or above 8 years old.

Battery loading and using

1. Battery loading of the transmitter

Loosen the screw on the battery cover of the transmitter, correctly load 2x1.5V "AA" non-chargeable batteries (Battery not included) into the transmitter as per the correct "+/-" polarity indicated , then close the battery cover again and tighten the screw.

- Please DO NOT play this product in dangerous places such as public roads. Choose a safe place to operate this product so as to avoid danger.
- Please DO NOT use this product on elevated places such as tables or counters so as to prevent high-altitude falling or drops.
- Please DO NOT place this product in direct sunlight or in places where the temperature or the temperature of the heating device are too high so as to avoid deformation or even damage.
- DO NOT play this product during rainy days or on puddles, so that it will not get wet by water and become faulty. If it gets wet accidentally, please absorb the water with a cloth which has good water absorption performance.
- Please DO NOT touch the wheels by fingers, hair, clothes while playing to avoid injury.
- When there is insufficient power with the R/C car or transmitter, the speed of the R/C car will obviously slow down, this time please replace the batteries or charge it timely.
- DO NOT pull the digging arm with your hand by force, so as not to cause damage to the excavator.
- Please DO NOT damage the antenna so as to avoid causing damaged to the transmitter.
- Maintenance: Wipe stains off the surface with a dry cloth.

Attention

The hydraulic rod and track of this product are easy to be damaged or fallen off. In case a part is damaged or missing, please purchase the same model from the manufacturer or dealer and install it by your own. Make sure that the product be complete in structure . Please DO NOT use different models or different brands of parts for installation so as to ensure the structural safety of the product.

- Non-chargeable batteries are NOT allowed to be charged.
- Rechargeable batteries can only be charged under the surveillance of the adult.
- Rechargeable batteries should be removed from toys before recharging.
- How to remove and place batteries? Loosen the screw with a screwdriver, open the battery cover, and load or remove the batteries as per the correct “+/-” polarity.
- Removing or loading batteries should be made as per the marks shown in the battery compartment.
- Only the batteries same as the recommended or the equivalence or the same brand can be used.
- DO NOT mix old batteries with the new ones.
Batteries of different types can not be mixed using together.
- The battery should be loaded as per correct “+/-” polarity.
- The exhausted battery should be removed from the toy. Batteries in the toy should be removed if left unused for a long time;
- The power terminal MUST NOT be short-circuited;
- Please DO NOT connect with the power supplies more than the quantity recommended.
- USB charging cable connection must be completed by parent.
- This product can only be charged by using the USB charging cable included in this product, never use the USB charging cable not recommended.
- ATTENTION: USB charging cable is not a toy.
- Please check periodically the USB charging cable, wire, plug, outer shell and other parts if they are damaged or not. In case damage, please stop using it until it is well repaired.

SAFETY PRECAUTIONS

- Small parts are contained in this product, please place this product out of the reach of the children so as to avoid the CHOKING HAZARD. Children under 3 years old are NOT allowed to use this product.

2. Battery loading of excavator

Make sure the power switch is in the OFF position, unscrew the battery cover of the excavator, and remove the cover of the battery compartment. Plug the power loaded with 3.7V rechargeable battery into the power connector of the battery compartment of the excavator and then close the cover of the battery again and tighten the screws.

WARNING: Please remove the batteries if the excavator is left unused for a long time.

3. Battery Charging of the Excavator

Insert the battery plug into the USB charging cable and then connect the USB charging cable with the adapter or USB port on the computer. When the lithium battery is under charging, the red light is normally “ON” and the red light will be “OFF” when the battery is fully charged. It takes about 3-4 hours to get the battery fully charged.

- Please check whether the input voltage of the adapter is consistent with the current voltage before charging.
- The output voltage of the adapter is to be consistent with that of the battery.

- Charging is to be done under the supervision of the adult.
- Keep the product away from combustibles when it is under charging and the charging shall be done under adult supervision.

Operating demonstration

Push the transmitter to (1) so that the excavator moves forward; push the transmitter to (2) so that the excavator moves backward;

Push the transmitter to (1) so that the excavator turns to the left; push the transmitter to (2) so that the excavator turns to the right.

Press the key (as shown) and the excavator will make Auto-DEMO.

Press the transmitter (1) so that the excavator console rotate to the left by 680 degrees; press the transmitter (2) so that the excavator console rotate to the right by 680 degrees.

Press the Key (1) on the transmitter and the digging arm of the excavator goes up; Press the Key (2) on the transmitter and the excavator's digging arm goes down.

Keep pressing key (1) for switching on or switching off the sound. Shortly pressing it for switching on or switching off the light; Press the key (2) Atomizing Switch and wait for 2 seconds.

Remove the soft rubber plug, inject with half a bottle of water by using the water filler prepared beforehand and then cover with the soft rubber plug.

More operating functions and more surprises are to be discovered by you.

Please wipe the dirt off the surface of the product with a dry cloth when finish using it so as to avoid damage to the parts and thus extend the service life of the product.

PRECAUTION ON BATTERY

- Type of battery required for the toy: 1x 3.7V rechargeable lithium battery is required in this excavator. 2x 1.5V "AA" non-rechargeable batteries (not included) are required in this transmitter.

- Small parts are contained in this product, please place this product out of the reach of the children so as to avoid the CHOKING HAZARD. Children under 3 years old are NOT allowed to use this product.

2. Battery loading of excavator

Make sure the power switch is in the OFF position, unscrew the battery cover of the excavator, and remove the cover of the battery compartment. Plug the power loaded with 3.7V rechargeable battery into the power connector of the battery compartment of the excavator and then close the cover of the battery again and tighten the screws.

WARNING: Please remove the batteries if the excavator is left unused for a long time.

3. Battery Charging of the Excavator

Insert the battery plug into the USB charging cable and then connect the USB charging cable with the adapter or USB port on the computer. When the lithium battery is under charging, the red light is normally “ON” and the red light will be “OFF” when the battery is fully charged. It takes about 3-4 hours to get the battery fully charged.

- Please check whether the input voltage of the adapter is consistent with the current voltage before charging.
- The output voltage of the adapter is to be consistent with that of the battery.

- Charging is to be done under the supervision of the adult.
- Keep the product away from combustibles when it is under charging and the charging shall be done under adult supervision.

Operating demonstration

Push the transmitter to (1) so that the excavator moves forward; push the transmitter to (2) so that the excavator moves backward;

Push the transmitter to (1) so that the excavator turns to the left; push the transmitter to (2) so that the excavator turns to the right.

Press the key (as shown) and the excavator will make Auto-DEMO.

Press the transmitter (1) so that the excavator console rotate to the left by 680 degrees; press the transmitter (2) so that the excavator console rotate to the right by 680 degrees.

Press the Key (1) on the transmitter and the digging arm of the excavator goes up; Press the Key (2) on the transmitter and the excavator's digging arm goes down.

Keep pressing key (1) for switching on or switching off the sound. Shortly pressing it for switching on or switching off the light; Press the key (2) Atomizing Switch and wait for 2 seconds.

Remove the soft rubber plug, inject with half a bottle of water by using the water filler prepared beforehand and then cover with the soft rubber plug.

More operating functions and more surprises are to be discovered by you.

Please wipe the dirt off the surface of the product with a dry cloth when finish using it so as to avoid damage to the parts and thus extend the service life of the product.

PRECAUTION ON BATTERY

- Type of battery required for the toy: 1x 3.7V rechargeable lithium battery is required in this excavator. 2x 1.5V "AA" non-rechargeable batteries (not included) are required in this transmitter.

Continuiamo a impegnarci per fornirvi strumenti a prezzi competitivi.

"Risparmia la metà", "Metà prezzo" o qualsiasi altra espressione simile da noi utilizzata rappresenta solo un stima del risparmio che potresti ottenere acquistando determinati strumenti con noi rispetto a grandi marchi top e non significa necessariamente coprire tutte le categorie di strumenti offerti da noi. Ti ricordiamo cortesemente di verificare attentamente quando effettui un ordine con noi se si risparmia effettivamente la metà rispetto ai marchi più noti.

Questa è l'istruzione originale, si prega di leggere attentamente tutte le istruzioni del manuale prima operativo. VEVOR si riserva una chiara interpretazione del nostro manuale utente. L'aspetto del prodotto sarà soggetto al prodotto che hai ricevuto. Per favore perdonaci se noi non ti informeremo più se ci saranno aggiornamenti tecnologici o software sul nostro prodotto.

Autocarro con cassone ribaltabile RC Modello: 3367

Informazioni FCC (ID FCC: 2BEDH-3369):

ATTENZIONE: Cambiamenti o modifiche non espressamente approvati dal responsabile della conformità potrebbe invalidare il diritto dell'utente a utilizzare l'apparecchiatura!

Questo dispositivo è conforme alla Parte 15 delle Norme FCC. Il funzionamento è soggetto a quanto segue due condizioni:

- 1) Questo prodotto può causare interferenze dannose.
- 2) Questo prodotto deve accettare qualsiasi interferenza ricevuta, comprese le interferenze che possono causare un funzionamento indesiderato.

ATTENZIONE: Cambiamenti o modifiche a questo prodotto non espressamente approvati dalla parte responsabile della conformità potrebbe invalidare il diritto dell'utente a utilizzare il prodotto.

Nota: questo prodotto è stato testato e ritenuto conforme ai limiti per un dispositivo digitale di Classe B dispositivo ai sensi della Parte 15 delle Norme FCC. Questi limiti sono progettati per fornire protezione ragionevole contro interferenze dannose in un'installazione residenziale.

Questo prodotto genera, utilizza e può irradiare energia a radiofrequenza e, se non installato e utilizzato in conformità alle istruzioni, può causare interferenze dannose in radiocomunicazioni. Tuttavia, non vi è alcuna garanzia che non si verifichino interferenze in un'installazione particolare. Se questo prodotto causa interferenze dannose alla radio o alla televisione ricezione, che può essere determinata accendendo e spegnendo il prodotto, l'utente è incoraggiato a provare a correggere l'interferenza mediante una o più delle seguenti misure.

- Riorientare o riposizionare l'antenna ricevente.
- Aumentare la distanza tra il prodotto e il ricevitore.
- Collegare il prodotto a una presa su un circuito diverso da quello a cui è collegato il ricevitore collegato.
- Per assistenza, consultare il rivenditore o un tecnico radio/TV esperto.

Smaltimento corretto

Questo prodotto è soggetto alle disposizioni della Direttiva europea 2012/19/UE.

il simbolo raffigurante un bidone della spazzatura barrato indica che il prodotto richiede raccolta differenziata dei rifiuti nell'Unione Europea. Ciò vale per il prodotto e

tutti gli accessori contrassegnati con questo simbolo. I prodotti contrassegnati come tali potrebbero non essere

smaltito con i normali rifiuti domestici, ma deve essere portato in un punto di raccolta per il riciclaggio dispositivi elettrici ed elettronici.

Important Notice

Attention please! This product can only be put into massive production after strict performance demonstration and actual testing as well as verify its compliance with the safety standards.

The manufacturer or distributor will not be responsible for any accident caused by use of damaged parts or abnormal faulty or broken parts. Nor do we responsible for any accident caused by improper assembly or operation in an unsafe environment during the use of any remote control model. Please make sure to operate this product in a safe environment.

Troubleshooting

Product problems	Solutions
Failure to start the excavator	1.The power switch is off, please turn it on. 2.The battery is loaded incorrectly. Please check the positive and negative polarity of the battery to ensure correct loading of the battery. 3. The battery is exhausted, please charge the battery or replace the battery.
The remote control is unavailable for use	1.The battery in the transmitter is exhausted, please replace it with a new battery. 2.The excavator is beyond the controlling scope of the transmitter, please keep it in the controllable range. 3. Considering the presence of electromagnetic interference on surroundings, please bring the toy to a spacious site and use it.

Note: The surrounding electromagnetic wave interference may lead to the remote control car failure, you can restart the remote control car and operate again.

Battery loading and using

1. Battery loading of the transmitter

Loosen the screw on the battery cover of the transmitter, correctly load 2x1.5V "AA" non-chargeable batteries (Battery not included) into the transmitter as per the correct "+/-" polarity indicated , then close the battery cover again and tighten the screw.

- Please DO NOT play this product in dangerous places such as public roads. Choose a safe place to operate this product so as to avoid danger.
- Please DO NOT use this product on elevated places such as tables or counters so as to prevent high-altitude falling or drops.
- Please DO NOT place this product in direct sunlight or in places where the temperature or the temperature of the heating device are too high so as to avoid deformation or even damage.
- DO NOT play this product during rainy days or on puddles, so that it will not get wet by water and become faulty. If it gets wet accidentally, please absorb the water with a cloth which has good water absorption performance.
- Please DO NOT touch the wheels by fingers, hair, clothes while playing to avoid injury.
- When there is insufficient power with the R/C car or transmitter, the speed of the R/C car will obviously slow down, this time please replace the batteries or charge it timely.
- DO NOT pull the digging arm with your hand by force, so as not to cause damage to the excavator.
- Please DO NOT damage the antenna so as to avoid causing damaged to the transmitter.
- Maintenance: Wipe stains off the surface with a dry cloth.

Attention

The hydraulic rod and track of this product are easy to be damaged or fallen off. In case a part is damaged or missing, please purchase the same model from the manufacturer or dealer and install it by your own. Make sure that the product be complete in structure . Please DO NOT use different models or different brands of parts for installation so as to ensure the structural safety of the product.

- Non-chargeable batteries are NOT allowed to be charged.
- Rechargeable batteries can only be charged under the surveillance of the adult.
- Rechargeable batteries should be removed from toys before recharging.
- How to remove and place batteries? Loosen the screw with a screwdriver, open the battery cover, and load or remove the batteries as per the correct “+/-” polarity.
- Removing or loading batteries should be made as per the marks shown in the battery compartment.
- Only the batteries same as the recommended or the equivalence or the same brand can be used.
- DO NOT mix old batteries with the new ones.
Batteries of different types can not be mixed using together.
- The battery should be loaded as per correct “+/-” polarity.
- The exhausted battery should be removed from the toy. Batteries in the toy should be removed if left unused for a long time;
- The power terminal MUST NOT be short-circuited;
- Please DO NOT connect with the power supplies more than the quantity recommended.
- USB charging cable connection must be completed by parent.
- This product can only be charged by using the USB charging cable included in this product, never use the USB charging cable not recommended.
- ATTENTION: USB charging cable is not a toy.
- Please check periodically the USB charging cable, wire, plug, outer shell and other parts if they are damaged or not. In case damage, please stop using it until it is well repaired.

SAFETY PRECAUTIONS

- Small parts are contained in this product, please place this product out of the reach of the children so as to avoid the CHOKING HAZARD. Children under 3 years old are NOT allowed to use this product.

2. Battery loading of excavator

Make sure the power switch is in the OFF position, unscrew the battery cover of the excavator, and remove the cover of the battery compartment. Informacje FCC (FCC ID: 2BEDH-3369):

UWAGA: Zmiany lub modyfikacje, które nie zostały wyraźnie zatwierdzone przez stronę odpowiedzialną za niezgodność może spowodować unieważnienie prawa użytkownika do korzystania ze sprzętu!

To urządzenie jest zgodne z częścią 15 przepisów FCC. Eksploatacja podlega następującym zasadom dwa warunki:

- 1) Produkt ten może powodować szkodliwe zakłócenia.
- 2) Produkt ten musi akceptować wszelkie odbierane zakłócenia, w tym zakłócenia, które mogą powodować niepożądane działanie.

OSTRZEŻENIE: Zmiany lub modyfikacje tego produktu nie są wyraźnie zatwierdzone przez stronę odpowiedzialną za zgodność może spowodować unieważnienie prawa użytkownika do korzystania z produktu.

Uwaga: Ten produkt został przetestowany i uznany za zgodny z ograniczeniami dla urządzeń cyfrowych klasy B. urządzenie zgodnie z Częścią 15 Przepisów FCC. Te ograniczenia mają na celu zapewnienie rozsądnej ochrony przed szkodliwymi zakłóceniami w instalacjach domowych.

Ten produkt generuje, wykorzystuje i może emitować energię o częstotliwości radiowej i jeśli nie jest zainstalowany i używany zgodnie z instrukcją może powodować szkodliwe zakłócenia w radiokomunikacji. Nie ma jednak gwarancji, że zakłócenia nie wystąpią w szczególnej instalacji. Jeśli ten produkt powoduje szkodliwe zakłócenia w radiu lub telewizji odbiór, który można określić poprzez wyłączenie i włączenie produktu, użytkownik jest zachęcamy do podjęcia próby skorygowania zakłóceń poprzez zastosowanie jednego lub kilku z następujących środków.

- Zmiana orientacji lub położenia anteny odbiorczej.
 - Zwiększ odległość między produktem a odbiornikiem.
 - Podłączyć produkt do gniazdka w innym obwodzie niż ten, do którego podłączony jest odbiornik.
- połączony.
- Aby uzyskać pomoc, należy zwrócić się do sprzedawcy lub doświadczonego technika radiowo-telewizyjnego.

Prawidłowa utylizacja

Ten produkt podlega postanowieniom dyrektywy europejskiej 2012/19/UE.

symbol przedstawiający przekreślony kosz na śmieci oznacza, że produkt wymaga selektywnej zbiórki odpadów w Unii Europejskiej. Dotyczy to produktu i

wszystkie akcesoria oznaczone tym symbolem. Produkty oznaczone w ten sposób nie mogą być

wyrzucać razem z normalnymi odpadami domowymi, ale należy je oddać do punktu zbiórki w celu recyklingu urządzeń elektrycznych i elektronicznych.

Battery loading and using

1. Battery loading of the transmitter

Loosen the screw on the battery cover of the transmitter, correctly load 2x1.5V "AA" non-chargeable batteries (Battery not included) into the transmitter as per the correct "+/-" polarity indicated, then close the battery cover again and tighten the screw.

- Please DO NOT play this product in dangerous places such as public roads. Choose a safe place to operate this product so as to avoid danger.
- Please DO NOT use this product on elevated places such as tables or counters so as to prevent high-altitude falling or drops.
- Please DO NOT place this product in direct sunlight or in places where the temperature or the temperature of the heating device are too high so as to avoid deformation or even damage.
- DO NOT play this product during rainy days or on puddles, so that it will not get wet by water and become faulty. If it gets wet accidentally, please absorb the water with a cloth which has good water absorption performance.
- Please DO NOT touch the wheels by fingers, hair, clothes while playing to avoid injury.
- When there is insufficient power with the R/C car or transmitter, the speed of the R/C car will obviously slow down, this time please replace the batteries or charge it timely.
- DO NOT pull the digging arm with your hand by force, so as not to cause damage to the excavator.
- Please DO NOT damage the antenna so as to avoid causing damaged to the transmitter.
- Maintenance: Wipe stains off the surface with a dry cloth.

Attention

The hydraulic rod and track of this product are easy to be damaged or fallen off. In case a part is damaged or missing, please purchase the same model from the manufacturer or dealer and install it by your own. Make sure that the product be complete in structure. Please DO NOT use different models or different brands of parts for installation so as to ensure the structural safety of the product.

- Non-chargeable batteries are NOT allowed to be charged.
- Rechargeable batteries can only be charged under the surveillance of the adult.
- Rechargeable batteries should be removed from toys before recharging.
- How to remove and place batteries? Loosen the screw with a screwdriver, open the battery cover, and load or remove the batteries as per the correct “+/-” polarity.
- Removing or loading batteries should be made as per the marks shown in the battery compartment.
- Only the batteries same as the recommended or the equivalence or the same brand can be used.
- DO NOT mix old batteries with the new ones.
Batteries of different types can not be mixed using together.
- The battery should be loaded as per correct “+/-” polarity.
- The exhausted battery should be removed from the toy. Batteries in the toy should be removed if left unused for a long time;
- The power terminal MUST NOT be short-circuited;
- Please DO NOT connect with the power supplies more than the quantity recommended.
- USB charging cable connection must be completed by parent.
- This product can only be charged by using the USB charging cable included in this product, never use the USB charging cable not recommended.
- ATTENTION: USB charging cable is not a toy.
- Please check periodically the USB charging cable, wire, plug, outer shell and other parts if they are damaged or not. In case damage, please stop using it until it is well repaired.

SAFETY PRECAUTIONS

- Small parts are contained in this product, please place this product out of the reach of the children so as to avoid the CHOKING HAZARD. Children under 3 years old are NOT allowed to use this product.

2. Battery loading of excavator

Make sure the power switch is in the OFF position, unscrew the battery cover of the excavator, and remove the cover of the battery compartment. Plug the power loaded with 3.7V rechargeable battery into the power connector of the battery compartment of the excavator and then close the cover of the battery again and tighten the screws.

WARNING: Please remove the batteries if the excavator is left unused for a long time.

3. Battery Charging of the Excavator

Insert the battery plug into the USB charging cable and then connect the USB charging cable with the adapter or USB port on the computer. When the lithium battery is under charging, the red light is normally “ON” and the red light will be “OFF” when the battery is fully charged. It takes about 3-4 hours to get the battery fully charged.

- Please check whether the input voltage of the adapter is consistent with the current voltage before charging.
- The output voltage of the adapter is to be consistent with that of the battery.

- Charging is to be done under the supervision of the adult.
- Keep the product away from combustibles when it is under charging and the charging shall be done under adult supervision.

Operating demonstration

Push the transmitter to (1) so that the excavator moves forward; push the transmitter to (2) so that the excavator moves backward;

Push the transmitter to (1) so that the excavator turns to the left; push the transmitter to (2) so that the excavator turns to the right.

Press the key (as shown) and the excavator will make Auto-DEMO.

Press the transmitter (1) so that the excavator console rotate to the left by 680 degrees; press the transmitter (2) so that the excavator console rotate to the right by 680 degrees.

Press the Key (1) on the transmitter and the digging arm of the excavator goes up; Press the Key (2) on the transmitter and the excavator's digging arm goes down.

Keep pressing key (1) for switching on or switching off the sound. Shortly pressing it for switching on or switching off the light; Press the key (2) Atomizing Switch and wait for 2 seconds.

Remove the soft rubber plug, inject with half a bottle of water by using the water filler prepared beforehand and then cover with the soft rubber plug.

More operating functions and more surprises are to be discovered by you.

Please wipe the dirt off the surface of the product with a dry cloth when finish using it so as to avoid damage to the parts and thus extend the service life of the product.

PRECAUTION ON BATTERY

- Type of battery required for the toy: 1x 3.7V rechargeable lithium battery is required in this excavator. 2x 1.5V "AA" non-rechargeable batteries (not included) are required in this transmitter.

FCC-informatie (FCC- ID: 2BEDH-3369):

LET OP: Wijzigingen of aanpassingen die niet uitdrukkelijk zijn goedgekeurd door de partij die verantwoordelijk is voor naleving kan de bevoegdheid van de gebruiker om de apparatuur te bedienen ongeldig maken!

Dit apparaat voldoet aan Deel 15 van de FCC-regels. De werking is onderworpen aan de volgende twee voorwaarden:

- 1) Dit product kan schadelijke interferentie veroorzaken.
- 2) Dit product moet alle ontvangen interferentie accepteren, inclusief interferentie die kan ongewenste werking veroorzaken.

WAARSCHUWING: Wijzigingen of aanpassingen aan dit product die niet uitdrukkelijk door de partij zijn goedgekeurd verantwoordelijk is voor de naleving, kan de bevoegdheid van de gebruiker om het product te bedienen ongeldig maken.

Let op: Dit product is getest en voldoet aan de limieten voor een digitale klasse B-batterij.

apparaat overeenkomstig Deel 15 van de FCC-regels. Deze limieten zijn bedoeld om redelijke bescherming tegen schadelijke interferentie in een residentiële installatie.

Dit product genereert, gebruikt en kan radiofrequentie-energie uitstralen, en als het niet is geïnstalleerd en gebruikt in overeenstemming met de instructies, kan het schadelijke interferentie veroorzaken in radiocommunicatie. Er is echter geen garantie dat er geen interferentie zal optreden in een specifieke installatie. Als dit product schadelijke interferentie veroorzaakt aan radio of televisie ontvangst, die kan worden bepaald door het product uit en aan te zetten, is de gebruiker

Wij raden u aan om te proberen de interferentie te verhelpen door een of meer van de volgende maatregelen te nemen.

- Heroriënteer of verplaats de ontvangstantenne.
- Vergroot de afstand tussen het product en de ontvanger.
- Sluit het product aan op een stopcontact op een ander circuit dan dat waarop de ontvanger is aangesloten.
- Raadpleeg de dealer of een ervaren radio-/tv-technicus voor hulp.

Correcte verwijdering

Dit product is onderworpen aan de bepalingen van de Europese richtlijn 2012/19/EU.

symbool met een doorgestreepte afvalbak geeft aan dat het product

gescheiden afvalinzameling in de Europese Unie. Dit geldt voor het product en

alle accessoires gemarkeerd met dit symbool. Producten die als zodanig zijn gemarkeerd, mogen niet

weggegooid met het normale huisvuil, maar moet naar een inzamelpunt worden gebracht voor recycling elektrische en elektronische apparaten.

Important Notice

Attention please! This product can only be put into massive production after strict performance demonstration and actual testing as well as verify its compliance with the safety standards.

The manufacturer or distributor will not be responsible for any accident caused by use of damaged parts or abnormal faulty or broken parts. Nor do we responsible for any accident caused by improper assembly or operation in an unsafe environment during the use of any remote control model. Please make sure to operate this product in a safe environment.

Troubleshooting

Product problems	Solutions
Failure to start the excavator	1.The power switch is off, please turn it on. 2.The battery is loaded incorrectly. Please check the positive and negative polarity of the battery to ensure correct loading of the battery. 3. The battery is exhausted, please charge the battery or replace the battery.
The remote control is unavailable for use	1.The battery in the transmitter is exhausted, please replace it with a new battery. 2.The excavator is beyond the controlling scope of the transmitter, please keep it in the controllable range. 3. Considering the presence of electromagnetic interference on surroundings, please bring the toy to a spacious site and use it.

Note: The surrounding electromagnetic wave interference may lead to the remote control car failure, you can restart the remote control car and operate again.

Suitable for children
on or above 8 years old.

Vi fortsätter att vara engagerade i att ge dig verktyg till konkurrenskraftiga priser.

"Spara hälften", "Halva priset" eller andra liknande uttryck som används av oss representerar endast en uppskattning av besparingar du kan dra nytta av att köpa vissa verktyg hos oss jämfört med stora toppmärken och betyder inte nödvändigtvis att täcka alla kategorier av verktyg som erbjuds av oss. Du påminns om att kontrollera noggrant när du gör en beställning hos oss om du faktiskt sparar hälften i jämförelse med de främsta stora varumärkena.

Detta är den ursprungliga instruktionen, läs alla manualer noggrant innan

fungerar. VEVOR reserverar sig för en tydlig tolkning av vår användarmanual. Utseendet

av produkten ska vara föremål för produkten du fått. Förlåt oss att vi

kommer inte att informera dig igen om det finns några teknik- eller programuppdateringar på vår produkt.

RC dumper modell: 3367

FCC-information (FCC ID:2BEDH-3369):

WARNING: Ändringar eller modifieringar som inte uttryckligen godkänts av den part som ansvarar för överensstämmelse kan ogiltigförklara användarens behörighet att använda utrustningen!

Denna enhet uppfyller del 15 av FCC-reglerna. Driften är föremål för följande

två villkor:

- 1) Denna produkt kan orsaka skadliga störningar.
- 2) Denna produkt måste acceptera alla mottagna störningar, inklusive störningar som kan orsaka oönskad funktion.

WARNING: Ändringar eller modifieringar av denna produkt som inte uttryckligen godkänts av parten ansvarig för efterlevnad kan ogiltigförklara användarens behörighet att använda produkten.

Obs: Denna produkt har testats och befunnits uppfylla gränserna för en digital klass B enhet i enlighet med del 15 av FCC-reglerna. Dessa gränser är utformade för att tillhandahålla rimligt skydd mot skadliga störningar i en bostadsinstallation.

Denna produkt genererar, använder och kan utstråla radiofrekvensenergi, och om den inte är installerad och används i enlighet med instruktionerna, kan det orsaka skadliga störningar i radiokommunikation. Det finns dock ingen garanti för att störningar inte kommer att inträffa i en speciell installation. Om denna produkt orsakar skadliga störningar på radio eller TV mottagning, som kan fastställas genom att stänga av och på produkten, är användaren uppmuntras att försöka korrigera störningen genom en eller flera av följande åtgärder.

- Rikta om eller flytta mottagningsantennen.
- Öka avståndet mellan produkten och mottagaren.
- Anslut produkten till ett uttag på en annan krets än den som mottagaren är till ansluten.
- Kontakta återförsäljaren eller en erfaren radio/TV-tekniker för hjälp.

Korrekt avfallshantering

Denna produkt omfattas av bestämmelserna i det europeiska direktivet 2012/19/EU. De symbol som visar en soptunna på hjul korsad anger att produkten kräver separat sophämtning i Europeiska unionen. Detta gäller produkten och

alla tillbehör märkta med denna symbol. Produkter märkta som sådana kanske inte är det kasseras tillsammans med vanligt hushållsavfall, men måste lämnas till en samlingsplats för återvinning elektriska och elektroniska apparater.

Important Notice

Attention please! This product can only be put into massive production after strict performance demonstration and actual testing as well as verify its compliance with the safety standards.

The manufacturer or distributor will not be responsible for any accident caused by use of damaged parts or abnormal faulty or broken parts.
