Om denna artikel

- **Naturmaterial (Väderbeständigt) :** Varje enskild vass är noggrant utvald för hand och trädgårdsvasstaket är sammanvävt av bomullssnören, istället för trådar, för att säkerställa maximal hållbarhet och estetik. Vassstängsel motstår naturligt vatten och kan hålla i många år . Förvara naturligt vassstängsel på en torr, ventilerad plats när den inte används.
- **Användning inomhus och utomhus :** Utmärkt för inomhus eller utomhus. Använd den som en trädgård, balkong eller uteplats staket för att hålla husdjur från växter eller lägga till avskildhet. Eller använd den för att klä upp en vanlig vägg, skära av ett område på din trädgård och så vidare .
- **Klippbar och lätt :** Denna vassskärm kan förkortas genom att klippa av strängen i önskad längd och knyta strängar. Bambu fäktning high roll kan också justeras genom att skära individuella vass. Lätt och lätt att hantera .
- **Enkel montering :** Några buntband av nylon medföljer för att hjälpa till att fästa vasstaket på eventuella räcken eller stolpar. (Obs: naturligt vassstängsel kan ha små borrhål på ytan, så använd handskar för installation) .
