This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

**1. ⚠️ WARNING!**

1. Before Installation, make sure it does not run the risk of piercing any hidden current cables or water pipes. In case of doubt, use a digital tracking device or consult for an expert.
2. The rail should be mounted on stable surface. Do not overload.
3. The installation of the wall mount should be done by an adult, children should not use it without supervision.
4. Recommended for brick and concrete only; use special hardware for installing to plasterboard or other substrates.
5. Please make sure the wall mount is installed on a stable wall and avoid installing it in a humid, flammable or high temperature environment. otherwise the hanger may be damaged or items may fall, resulting in personal injury or property loss.
6. Regularly check the stability and safety of the hanger, and stop using it immediately if there is any damage or suspected problem.
7. Please read and understand this manual carefully before installing and using the wall mount.

**2. Maintenance Guide**

1. Wipe the wall hanger regularly with a dry cloth to keep it clean.
2. If the hanger is damaged or loose in any way, it should be repaired or replaced immediately.
3. Do not hang heavy items on the hanger, so as not to damage the hanger.

**3. Product Description**

The Wall Rack is a well-designed and easy-to-use storage solution that is mainly mounted on a vertical wall and used as a garage storage device for organizing cleaning tools, gardening tools, hand/power tools. The product is mainly composed of hooks and rails. The length of the rails is large, the hooks and rails are highly adaptable, and the distance between the hooks is adjustable.

**4. Installation Guide!**

Step 1. Locate and mark your rails, install 6 screws per rail, if necessary, user can add screws in spare holes

Step 2. Make Holes in the wall with a drill, and insert the dowels into the holes by using hammer.

Step 3. Make sure the top and bottom of rail are installed in the right direction.

Step 4. Install the steel rail and tighten the screw

Step 5. Snap your hooks on the rails and adjust the distance between two hooks with appropriate distance.

Step 6. The installation is complete.

## 5. User Guide

1. Make sure that items hung on the rack do not exceed its weight limit.
2. Try to distribute the weight on the hanger evenly and avoid being too heavy on one side.
3. Do not hang sharp or damaged objects on the hanger, as this may scratch the hanger or cause injury.
4. Adjust the spacing of the hooks as needed to accommodate items of different sizes and shapes.
5. Before loading, the hook needs to be completely placed in the rail.
