INTRODUCTION

Gutter guards are constructed with mill finish aluminum. It is time-saving in the process of installation and cleaning. DIY cut the length and bend to any shape to fit all hangers, including K-style hangers. A complete set of mounting screws and pre-drilled holes is easily installed on all types of roofs.

KEY FEATURES

Well-worked Guards

Leaf guards are an excellent choice for helping you enjoy the life of no more cleaning. In addition, gutter covers can avoid being troubled by wet basements and standing water-caused cracked foundations.

Aluminum Alloy Structure

The durable aluminum gutter screens help your gutters withstand the elements year after year and won't rust, corrosion in all seasons and climates.

Easy to Install

Measuring the right size for your gutter, then slide the gutter cover into your roof gutter, next tabbed the gutter cover one by one, at last, tighten the screws and bolt.

No Clog Design

Raised vent ridge and perforate surface ensure that the leaves and debris will not clog in your gutters. Meanwhile, it has no interference with the roofing structure by adjusted the shape of its own.

Away from Noise

Traditional gutter screens and covers are a nesting shelter for wasps, bees, birds, and rodents. With our gutter covers, your gutter can away from leaves and animal breeding.

Wide Application

The gutter brush leaf guard can be used widely, and you can install it on the roofs of metal, shingle, and wood at ease.
