EXTENSION POLE SAW USER MANUAL

We continue to be committed to provide you tools with competitive price. "Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

CONTENTS

1. Product composition
2. Install
3. Operating instruction
4. Matters needing attention

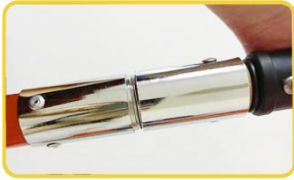

PRODUCT COMPONENTS

- ① Extension pole with handle
- ② Extension pole* 6
- ③ Connecting pole
- ④ Saw with hooks
- ⑤ Saw blade for backup
- ⑥ Saw blade for pruning saw
- ⑦ Pruning saw
- ⑧ Plastic knife sleeve

INSTALLATION

1. Unpack and takeout the product to see if the parts are complete: Extension pole with handle* 1; Extension pole * 6; Connecting pole* 1; Saw with hooks* 1; Saw blade for backup * 1; Saw blade for pruning saw * 1; Pruning saw * 1; Plastic knife sleeve * 1; Portable bag*1; User manual * 1.

2. Screw the connecting pole clockwise to the connecting pole.

3. Screw the 6 sections extension pole clockwise to the connecting pole.

4. Screw the pole clockwise to the bottom of the extension pole with handle.

5. Complete assembly.

Tips:

Q: What if the product is too heavy for me to lift up?

A: You can pick up the middle of the pole, then lift it and slowly raise it to the height you need to trim.

Q: Can the extension pole be used if a section is damaged during use?

A: Each section of one of our struts is independent, as long as the transfer pole is not damaged .

Q: What if I think the product is too long to operate?

A: The installation of extension poles can be reduced appropriately, and the reduction of extension pole installation will not lead to the reduction of product service life.

ATTENTION MATTERS

1. The blades are sharp, so be careful not to hurt yourself when installing them.
2. This product is made of multi-section aluminum alloy pole assembly. It is not recommended to vigorously hold the high branch saw shaking up and down to do a destructive product test , in order to prevent the extension pole connector fracture.
3. When installing the pruning saw, it is necessary to ensure that the screws are tightened to prevent the tool head from loosening and causing accidents.
4. After using the product, disassemble and store it. Because the blade head is very sharp, in case of accidents.
