STRIP CURTAIN USER MANUAL

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

1. WARNING!

- (1) Do not draw, cut, or use sharp objects on the door curtain to avoid damage.
- (2) Do not expose the door curtain to sunlight or high-temperature environments to prevent deformation or aging of the door curtain.
- (3) If you need to disassemble the door curtain, please follow the reverse steps to disassemble it and store it properly.
- (4) Clean the door curtain regularly to keep it clean and fresh; you can use a vacuum cleaner or damp cloth to gently wipe the door curtain.
- (5) If you purchase a roll-up strip curtain(SKU1-SKU12), you need to purchase the installation parts yourself.
- (6) Beware of scratching your fingers when installing.

2. Maintenance Guide

- (1) Regularly clean the door curtain, use a damp cloth to wipe the surface, and remove dust and dirt.
- (2) Avoid using corrosive cleaning agents or chemical solvents to clean the door curtain.
- (3) If the door curtain is found to be damaged, please replace the door curtain piece in time to ensure its normal use.
- (4) Striped curtains turning yellow can be caused by prolonged use or exposure to sunlight. If the curtains have turned severely yellow or been damaged, replace them with new ones.

3. Product Description

Striped door curtains are a type of decoration installed at the entrance of a door, which can effectively prevent insects, dust, and noise from entering the room, protect privacy, and provide thermal insulation, wind resistance, and sound insulation. Please read this manual carefully before use.

- The striped door curtains are made of high-quality, environmentally-friendly PVC materials.
- The door curtain is lightweight and breathable, which can effectively prevent indoor air from escaping, reducing energy waste.
- The door curtain has a certain shading performance, which can effectively

prevent dust, debris, and other items from entering the room.

4. Installation Guide

- (1) Please check if your goods are complete according to the product list.
- (2) Install the keel:
 - 1) Before installing the door curtain, please clean the doorway area to ensure a clean and level surface.
 - 2) Measure the width and height of the doorway. Cut the keel to an appropriate length according to the size of the doorway.
 - 3) Use a tool to drill holes in the door frame. The hole positions should correspond to the pre-drilled holes on the keel.
 - 4) Place the keel above the door frame and fix it with a screwdriver and screws.

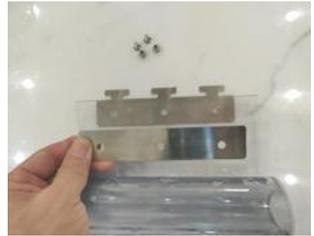

- (3) Install the strip curtain:
 - 1) Choose a suitable length and width for the door curtain based on the size of the doorway. Cut the curtain to an appropriate length and width using scissors.

- 2) Take clip-A to align the curtain hole and put it underneath.

3) Tack clip-B to align the curtain hole and put it above.

4) Tighten the screws in the clips to clamp the curtain firmly.

5) Insert the hanging hook of the door curtain into the hole on the keel. Make sure the curtain is installed in the correct position.

Adjust the height and width of the door curtain to fit the size and shape of the doorway.

Check if the door curtain installation is secure, ensuring its stability and reliability.

5. User Guide

- (1) Before use, please make sure that the door curtain is correctly installed and adjusted to the appropriate position.
- (2) When opening the door curtain, please first hold the edge of the door curtain and gently pull it to one side to avoid the door curtain falling off or being damaged.
- (3) When closing the door curtain, please pull it towards the center and make sure it is completely attached to the door frame.
- (4) If the door curtain is found to be loose or damaged during use, please perform maintenance or replacement in time.
- (5) To reduce packaging volume, the bottom of the PVC curtain may curl when it is first used, but it will gradually recover.
