## SHIPPING SCALE

MODEL:SF-808

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and doses not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

#### **BUTTON FUNCTIONS**

#### **Button Functions**

- 1.ON/OFF Button: Pressing this button will turn the scale on and off
- **2.TARE Button:** Pressing this button will tare the weight of the load. The tare function will eliminate the weight put on the scale, such as a container or vessel. This will give the weight only of the items added to the container.
- **3.UNIT Button:** Pressing this button changes the unit of measure for the scale.

#### **OPERATION**

1. Open the back cover and take out the indicator

Take out this indicator at the back of scale.

- 2.Press the ON/OFF button to switch the product on. The display shows "0.0" .
- 3. Place an item on the weighing plate. Wait for the readout on the display to stabilize.
- 4. After use, press the ON/OFF button to switch the product off.

#### **CALIBRATION**

- 1. Put the scale on a flat platform.
- 2. Switch on the scale, press the "UNIT" for six seconds until LCD display show capacity and calibration weight.
- 3. Press TAER button to select calibration weight between 20kg 50kg.
- 4. Press UNIT button to choose calibration weight.
- 5. Place the standard weight on the pan according to the value shown on the LCD display.
- 6. After 2 to 3 seconds, the LCD display will show PASS indicating the scale has been calibrated successfully.
- 7. If you fail in calibration, the scale will show "Err". You can press ON/OFF to stop calibration and try again.

#### **CARE INSTRUCTIONS**

Don't put the scale on an uneven surface

Don't expose scale to moisture

Don't drop or mistreat the scale

Don't overload the scale. This will permanently damage it!

Don't leave weight on the scale when not in use.

Replace battery when the scale shows "LO" on the display.
