HOW TO WALL OR FLOOR MOUNTING

- * Drill the appropriate size holes for the anchors you are using
- * Mount the safe by running screws from inside of the safe and securing to anchors
- * Use proper drill tools depending on the type of floor you are mounting the safe (wood, tile, or concrete)

SAFETY AND COMPLIANCE

1. Reduce the risk of theft, the safe must be fixed on the wall or floor to ensure safety.
2. Please take good care of the emergency key and store it in a secret place away from the safe. Do not put the emergency key into the safe, whether the emergency key will not be used to open the safe when the battery runs out.
3. Do not place the product on an unsafe overhead, so as to avoid falling, damaging the product or injuring people.
4. Do not spill liquid on the control panel, or it may cause electric shock to

the internal electronic components and prevent them from working properly.

WARMLY REMINDER

1. Because it is purely handmade, inside solder joint or rust stains are normal phenomenon.
2. Please keep emergency keys, secret cabinet keys and external power supply box safe.
3. The emergency key cannot open the safe of other brands or the same brand, which is unique.
(Please do not try, to avoid damage to the safe and the unmatched key cannot be taken out)
4. The protective film on the knob cover can be torn off.
5. Before closing the door, do not remove the emergency key or adjust its direction, which can avoid the lock bolt from jamming, and knob operation will be more smooth.
6. The door won't shut: Make sure there are no obstructions. If the door bolts are extended, re-enter the user code and turn the knob clockwise to retract them.

AFTER-SALES SERVICE

1. If the product you received has other problems such as usage problems, please feel free to contact us, and reply to online customer service within 24 hours to serve you.
2. Our products support 90 days for no reason to return or exchange.
3. I wish you a happy online shopping.
