### **TRAILER HITCH**

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

# IMPORTANT SAFEGUARDS

**Read and understand this entire manual before operating and servicing this product. Failure to follow these warnings and instructions can cause death, personal injury or damage to valuable property.**

## **Base safety rules**

1. Please tighten the installation; damage or danger can be done to loosen it. The warranty does not cover this damage.
2. Adhere to all Department of Transportation (D.O.T.) requirements when using this product.
3. Use common sense when working. Stay alert and concentrate when setting up and using this product. Never operate while under the influence of alcohol, drugs or medications.
4. This product is not a toy. Keep it out of reach of children. While using this product, keep the work area clean and well lighted. Keep children out of the work area.
5. Dress appropriately. Never wear loose fitting clothing or jewelry when using. Contain long hair, and keep hair, clothing and gloves away from moving parts.

## SPECIFICATIONS

MODEL	NT-1247 Class 3 Hitch		
Weight Carrying Capacity	6000lbs		
	Years	Make	Models
Applications	2020-Current	Toyota	HIGHLANDER

**M10\*15 hexagon nut with flange**

## **Installation steps:**

1. First, install the bracket and bar body with bolts.
2. Remove the screws and rubber cover from the bottom of the original car beam.
3. Install the tow bar onto the vehicle using the removed original vehicle bolts.
4. Thread the removed rubber plug hole into the U-shaped bolt and tighten the nut, flat washer, and spring washer.
5. Screw the M10\*15 hexagonal flange bolt onto the square threaded hole.
6. Installation completed.
