

# **VEVOR<sup>®</sup>**

**TOUGH TOOLS, HALF PRICE**

## **LOG GRATE**

**MODEL:H229-B**

We continue to be committed to provide you tools with competitive price.

"Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

This is the original instruction, please read all manual instructions carefully before operating. VEVOR reserves a clear interpretation of our user manual. The appearance of the product shall be subject to the product you received. Please forgive us that we won't inform you again if there are any technology or software updates on our product.

## Safety & Warning

1. Read and understand this entire manual before assembling, installing, operating, or servicing this product. Failure to follow these warnings and instructions can cause death, personal injury or damage to valuable property.
2. Every time you operate the parts of the high-temperature log grate, please use heat-resistant gloves to avoid burns.
3. Children should only use it with adult supervision.
4. Please wait for the stove to cool sufficiently before storing it to prevent burns.
5. Please keep the air well ventilated when use of use of the log grate in tents or extended spaces. Carbon monoxide is a colorless and transparent gas that must be discharged safely to avoid accumulation in a closed environment.
6. It is best to place a carbon monoxide detector in the space of the stove.
7. Never let children and pets near the stove, it will be very hot. Try to install safety protection devices, and be careful not to let children touch their hands.
8. When using the stove, please put it on the fire-resistant floor to prevent the tent floor from catching fire. Please add fuel carefully when opening the fuel injection port.
9. Pay attention to the choice of fuel. Or paint-treated wood will discharge harmful toxins when it burns.
