PVC TABLE MAT INSTRUCTIONS

We continue to be committed to provide you tools with competitive price. "Save Half", "Half Price" or any other similar expressions used by us only represents an estimate of savings you might benefit from buying certain tools with us compared to the major top brands and does not necessarily mean to cover all categories of tools offered by us. You are kindly reminded to verify carefully when you are placing an order with us if you are actually saving half in comparison with the top major brands.

PRECAUTIONS

- Although PVC tablecloth have good high temperature resistance, it's still necessary to maintain a certain safety distance from fire sources.
- It is recommended to replace the tablecloth with a new one if it becomes hard, tears, or has been used for too long.
- Due to packaging reasons, some tablecloth will have a little smell when they are received, which is a normal phenomenon, and the smell can be removed by blowing on the balcony or washing with detergent and drying in the sun.
- When unpacking, please do not use sharp knives to avoid damage to the tablecloth.
- Due to physical shrinkage, it is recommended to buy a larger size.
- Avoid prolonged exposure to sunlight to prevent yellowing of the product.

PRODUCT ADVANTAGES

TIPS

- Before using the product for the first time, peel off any promotional materials and packaging materials, and check that the product are clean and free of dust. If necessary, wipe them over with a damp cloth.
- Place the product in a clean place to unfold. **You can use a hot air cylinder to adjust the temperature to the middle range, about 10cm from the surface of the product. Using hot air to blow the product can better make it flat.**
- Wipe the area where the product needs to be laid with a damp cloth to make sure there are water droplets on the surface.
- Spread the product flat on the surface to be placed.
- Use a plastic sheet to scrape out the bubbles.
